

The T2 True Wireless earphones combine comfort, clarity, and freedom from wires.

LEGENDARY SOUND + GREAT FIT

After 60+ years of making legendary loudspeakers, we built upon our bold audio heritage to revolutionize the headphone industry. Since 2007 we have been creating the most innovative headphones on the market.

PATENTED OVAL EAR TIPS

The T2 True Wireless utilize patented contour ear tips that are designed to accurately sit inside the ear canal. These soft oval silicon tips reduce ear fatigue, provide the ultimate comfort and an excellent seal for noise isolation and superior bass. They fit better, they feel better, and only Klipsch has them.

FULL BASS, DYNAMIC DRIVER

The T2's dynamic driver combines high output and full bass extension. Ensuring deeper fit and better hold, the small acoustic modules are designed to stay in your ears securely and comfortably.

BATTERY LIFE

The T2 True Wireless provides up to 6 hours of battery life on a single charge and up to 18 additional hours with the wireless charging case.

WIRELESS CHARGING CASE

The case can be charged with the included USB-C cable or wirelessly using a charging pad. The battery case not only charges your earphones but protects them when not in use.

BLUETOOTH® 5

With AAC high quality codec, the signal is as good as wired with no delay during video playback.

SWEAT/WATER RESISTANT

IPX4 rated meaning these earphones will withstand the elements.
