

HT/1510 Predator

Wireless

SUGGESTED RETAIL: £1,799.00

HT/1510 resets expectations for REL's standard bearer, with a confident, sexy new look that meshes perfectly into the traditional REL family, while delivering significantly increased power and improved, well, just about everything. Predator II delivers upgraded performance across every performance category: 1,000-watt amplifier with PerfectFilter™ inputs, new 15" CarbonGlas™ driver that handles vastly more power, and confident, elegant styling not previously seen in home theatre designs. This encourages use in multi-REL systems, allowing blending with Serie T/x and Serie S.

Specifications

TYPE	Closed box, front firing driver
ACTIVE DRIVER SIZE & MATERIAL	15 in., CarbonGlas™ using glass fibre primary cone with true carbon fibre center cap for structural reinforcement
PASSIVE RADIATOR SIZE & MATERIAL	None
LOW FREQUENCY EXTENSION	-6dB at 20Hz
INPUT CONNECTORS	Low Level stereo RCA, LFE RCA, LFE XLR
OUTPUT CONNECTORS	Low Level stereo RCA, LFE RCA, LFE XLR
POWER OUTPUT	1000 watts (RMS)
AMPLIFIER TYPE	Linear Power supply with Class D output
WIRELESS CAPABILITY	Yes - REL HT-Air system (required), sold separately
DUAL PARAMETRIC FILTER	Yes

Protection System

FULLY ELECTRONIC SET SAFE	Yes

The Best Gets Better

Predator II, the full upgrade of HT/1510, builds on our original home theater-subwoofer (winner of Home Theater of the Year awards on multiple continents) by upgrading every component and aspect. These upgrades were based on three key learnings:

1. The sound was so good, people wanted more power
2. Looks matter and despite being enjoyed in the dark, a home theater subwoofer must look every bit as stunning as its audiophile-driven kin
3. Mating the HT/1510 with our high level models (Serie T/x and Serie S and Reference Models) produced dazzlingly rich, full continues theater quality bass

So Predator II received a full 1,000-watt linear power supply amplifier and new 15” (380mm) driver with 40% greater power to give people what they wanted — bigger, faster dynamics and flat out POWER. This attack is combined with a gorgeous new cabinet with sleek new proportions to perfectly mate with other REL designs for a surround sound system that truly looks as beautiful as it sounds. To make sure you received the benefits of these updates, we developed specialized HT versions of our award-winning PerfectFilter™ that delivers flatter deep bass, now down to 20 Hz. As icing on the cake, Predator II delivers the highest .1/LFE output of any REL. Ever.

"A couple takeaways that I got is that every time the monster would swipe or a card door is closing you would get that immediate thump from the center channel which I think if you didn't have a center channel subwoofer you would just feel it from the front left and right...This is more direct and because when you see the monster swipe on screen in the center of the screen it sounds like he's actually hitting this person or there's a car door slamming it is coming from the center." Read More +

"The REL HT/1510 powerhouse of a s approaches to sub outright extension philosophy that fa' slam. It's a refresh most impressive s listening to." Read
