Mircophones designed with superior voice clarity  
for speech applications ensure optimal intelligibility.

## ***Versatile high-performance microphones that can satisfy all user speech-application needs.***

TOA introduces a new line of microphones that offer superb sound quality and reliability. Featuring extended high-frequency response to enhance clarity and high resistance to ambient noise, speech reproduction is exemplary.

Stylishly designed and compact,  
the new TOA microphones comprise the EM-800 Gooseneck, the  
EM-700 Boundary, the EM-600 Flush Mount Boundary,  
and the EM-410 Lavalier models.

## ***EM-800***

### **Gooseneck Microphone**

- Ideal for speech applications including meetings, lectures, and religious services.
- Electret condenser microphone element with cardio pattern for focused pickup.
- Excellent high-frequency response of 60 – 20k Hz delivers clear output even through a PA system.
- High sensitivity (–35dB) provides a satisfying total response.
- Gooseneck with two adjustment points allows more flexible microphone positioning angles.
- Rejection of undesirable off-axis sound minimizes possible feedback.
- Phantom power range of 9 to 52 volts enhances operational versatility.

**ST-800**  
Microphone Stand (option)

## ***EM-700***

### **Boundary Microphone**

- Ideal for speech and recording applications at meetings, lectures, and religious services.
- Electret condenser microphone element with cardioid pattern for focused pickup.
- Design, optimized to deliver best performance when used on a desk.
- Slim, stylish design suits interior decor.
- Rejection of undesirable off-axis sound minimizes possible feedback.
- Low-cut filter switch prevents interference from ambient noise from being picked up.
- Wide frequency range of 35 – 20 kHz provides well-balanced sound with clarity and a satisfying tonal response.
- Phantom power range of 9 to 52 volts enhances operational versatility.

## ***EM-600***

### **Flush-Mount Boundary Microphone**

- Ideal for conference room recording and security monitoring.
- Electret condenser microphone element with omnidirectional pattern for comprehensive pickup.
- Unobtrusive design allows easy flush-mounting in walls, ceilings, and desktops.
- Optimized to deliver best performance when used on a desk or attached to a ceiling.
- A 50 Hz low-cut filter reduces intrusive noise, such as air conditioner rumble or door opening/closing.
- Two rubber isolation rings are provided as an accessory serving to reduce vibration.
- Wide frequency range of 30 – 20 kHz provides well-balanced sound with clarity and a satisfying tonal response.
- Phantom power range of 9 to 52 volts enhances operational versatility.

## ***EM-410***

### **Lavalier Microphone**

- Ideal for voice-oriented applications such as lectures, presentations and religious services.
- Compact electret condenser microphone element with hypercardioid pattern for highly focused pickup.
- Designed for best performance when attached to the chest area.
- The cable holder minimizes noise from cable and clothes rustling.
- Capsule rotates 360 degrees, for optimal pickup even when worn on a lapel.
- Phantom power range of 9 to 52 volts enhances operational versatility.
