### **PROFESSIONAL SOUND SYSTEMS**

# 

Wharfedale Pro are proud to announce to you the release of the improved Titan 8A MKII.

New features and improved amplifier technology make the Titan 8A MKII an even better solution for portable sound and fixed installation applications.

The 2 band EQ from the Titan 12A and 15A now features in the more compact 8A MKII model allowing fine tuning of the overall sound. In addition a rear mounted horn LED defeat switch has been added to switch off the throat mounted power LED, for use in situations where visual transparency is paramount.

Class D technology is now used for both the LF and HF sections, resulting in a more efficient and powerful system that is now even lighter than the previous generation. The Titan 8A MKII is bi-amplified with independent LF and HF signal limiting.

The Titan 8A MKII provides enough output and low frequency extension to be a standalone vocal PA for A/V and presentation work, or combined with a subwoofer for a portable band or DJ setup.

The compact and stylish form factor, range of compatible Wharfedale Pro WPB brackets and versatile rigging points make the Titan 8A MKII an equally suitable choice for an installed background music or paging solution. As with the previous generation the Titan 8A MKII is available in black, grey or white. The angled cabinet also makes the Titan 8A MKII a fantastic compact vocal foldback monitor.

PROFESSIONAL SOUND SYSTEMS

## Titan<sup>®</sup> 8 ACTIVE MK

### FEATURES

- 2-way bi-amplified
- Class D LF and HF power amplifiers
- Independent LF and HF signal limiting
- Thermal, DC and short circuit fault protection
- Hi / Low EQ controls
- Combo XLR / 1/4" jack balanced line level input and output
- Rear panel mic / line switch
- Rear panel horn LED defeat switch
- Eight M6 threaded inserts for flown applications
- Wall mount bracket options available separately (WPB-T8 & WPB-3)
- Available in black, grey or white

#### SPECIFICATIONS

Model Name	Titan <sup>™</sup> 8 ACTIVE MKII		
System Type	Active 8" 2-way Bi-Amplified	Inputs	
	system	Input A – type	Switchable balanced mic or line level input
Frequency Response (+/-3dB)	70-20kHz	Input Sensitivity	Mic: -47dBu (-49.2dBv or 3.4mVrms)
Low Frequency Transducer			Line: 0dBu (-2.2dBv or 0.775Vrms)
Size (mm / inches)	205mm / 8"	Maximum Input Level	+22dBu
Coil Size (mm / inches)	38.86mm / 1.53"	Input Connector	XLR / ¼" Combo jack
Impedance	4 Ω	Input Impedance	Balanced: $20k\Omega$ - Unbalanced: $10k\Omega$
High Frequency Transducer		Maximum Input Level	+22dBu
Туре	Compression Driver	Input B – type	
Coil Size (mm / inches)	25mm / 1"	Maximum Input Level	+22dBu
Exit Size (mm / inches)	30mm / 1.2"	Input Connectors	Combo jack: 1/4" - XLR
Diaphragm Material	Cloth	Line Output	
Impedance	8 Ω	Line Output Connector	Switchable LOOP / MIX Balanced Male XLR Connector
High Frequency Coverage (H x V)	90° x 60°		
Amplifiers		Impedance Balanced:	Balanced: 1k ohm – Unbalanced: 500 ohm
Low-Frequency Power Amplifier (Class D)	Rated 150W RMS, 300W Peak	Sensitivity	0dBu (-2.2dBv or 0.775Vrms)
High- Frequency Power Amplifier (Class D)	Rated 30W RMS, 60W Peak	AC Power details	
Electronic Crossover:	24dB per octave Linkwitz-Riley	Power Supply	High Efficiency Switching Mode Power Supply
Crossover Frequency	2.4kHz	AC Power Options	AC100~240V, 50 / 60Hz
Controls	High (±10dB) 10kHz Shelving	Power On Indicator	LED
Equalization:	Low (±10dB) 100Hz Shelving	Rigging / Bracket /	8 M6 threaded inserts including 4 M6 threaded
Bass Response Optimizer ("BRO"™) circuit		Mounting Options	inserts on bottom in OmniMount 30.0-type footprint
Subsonic Filter	30Hz, Second-order filter		Pole-mount receptacle with lock screw
Amplifier Protection			1 carry handles ( on each side)
Power On Protection	Power switch on / off mute		Optional wall-mount bracket
Thermal Protection	Amplifier shutdown, auto reset	Enclosure	
Low Line Voltage Shut Down	< 80VAC	Enclosure Material	Injection Moulded Polypropylene
Driver Protection	Independent LF and HF limiters	Colour	Grey,Black or white
DC Protection	Yes	Dimensions (mm / inches): H×W× D	396mm / 15.59" × 266mm /10.47" × 221mm / 8.7"
Short Protection	Yes	Weight	
Clip Limiter:	Turns on approx 150W output	Net Weight (kg / lbs)	6.25kg / 13.75lbs
Limiter Indicator	Red LED	Gross Weight (kg / lbs)	8.15kg/ 17.93lbs
Power Indicator	Blue LED
