

□ Handling a disc

- Handle a disc carefully so as not to scratch the recorded surface. Do not bend a disc.
- If there are any fingerprints or dust on the recorded surface, use a soft cloth to wipe the surface straight from the center toward the perimeter.

- Never use a vinyl record cleaner, anti-static agent, or other chemical to wipe a disc.
- Use a soft-tip pen to write only on the label side.
- Do not leave a disc under the direct sunlight or in a location that is exposed to high temperature or humidity for a long period of time.
- Do not use a commercially-available lens cleaner. Otherwise, a malfunction may occur.
